AI IN PRINT:

Physical Delivery.
Digital Intelligence.

MindFire

Welcome to Direct Mail That Talks Back

What you're about to experience is a mail piece that speaks to you. Scan the QR code, and you'll connect with an AI voice agent that can answer questions, provide information, and even schedule appointments—all through natural conversation.

How It Works

1. **Find the QR code** on page 6 of this PDF
2. **Scan it** with your phone's camera
3. **Unmute your microphone** (you'll start on mute)
4. **Start talking** naturally—like you're speaking with a friend

What You Can Do

- Have a real conversation in multiple languages (try Spanish, French, or others)
- Ask detailed questions about the property, neighborhood, or financing options
- Request actions like scheduling a showing

What's Happening Behind the Scenes

While you're having a natural conversation, there's powerful technology working in the background:

Personalized to You
The AI uses information from your mail piece to tailor responses specifically to you, whether that's property details, local market data, or your preferences.

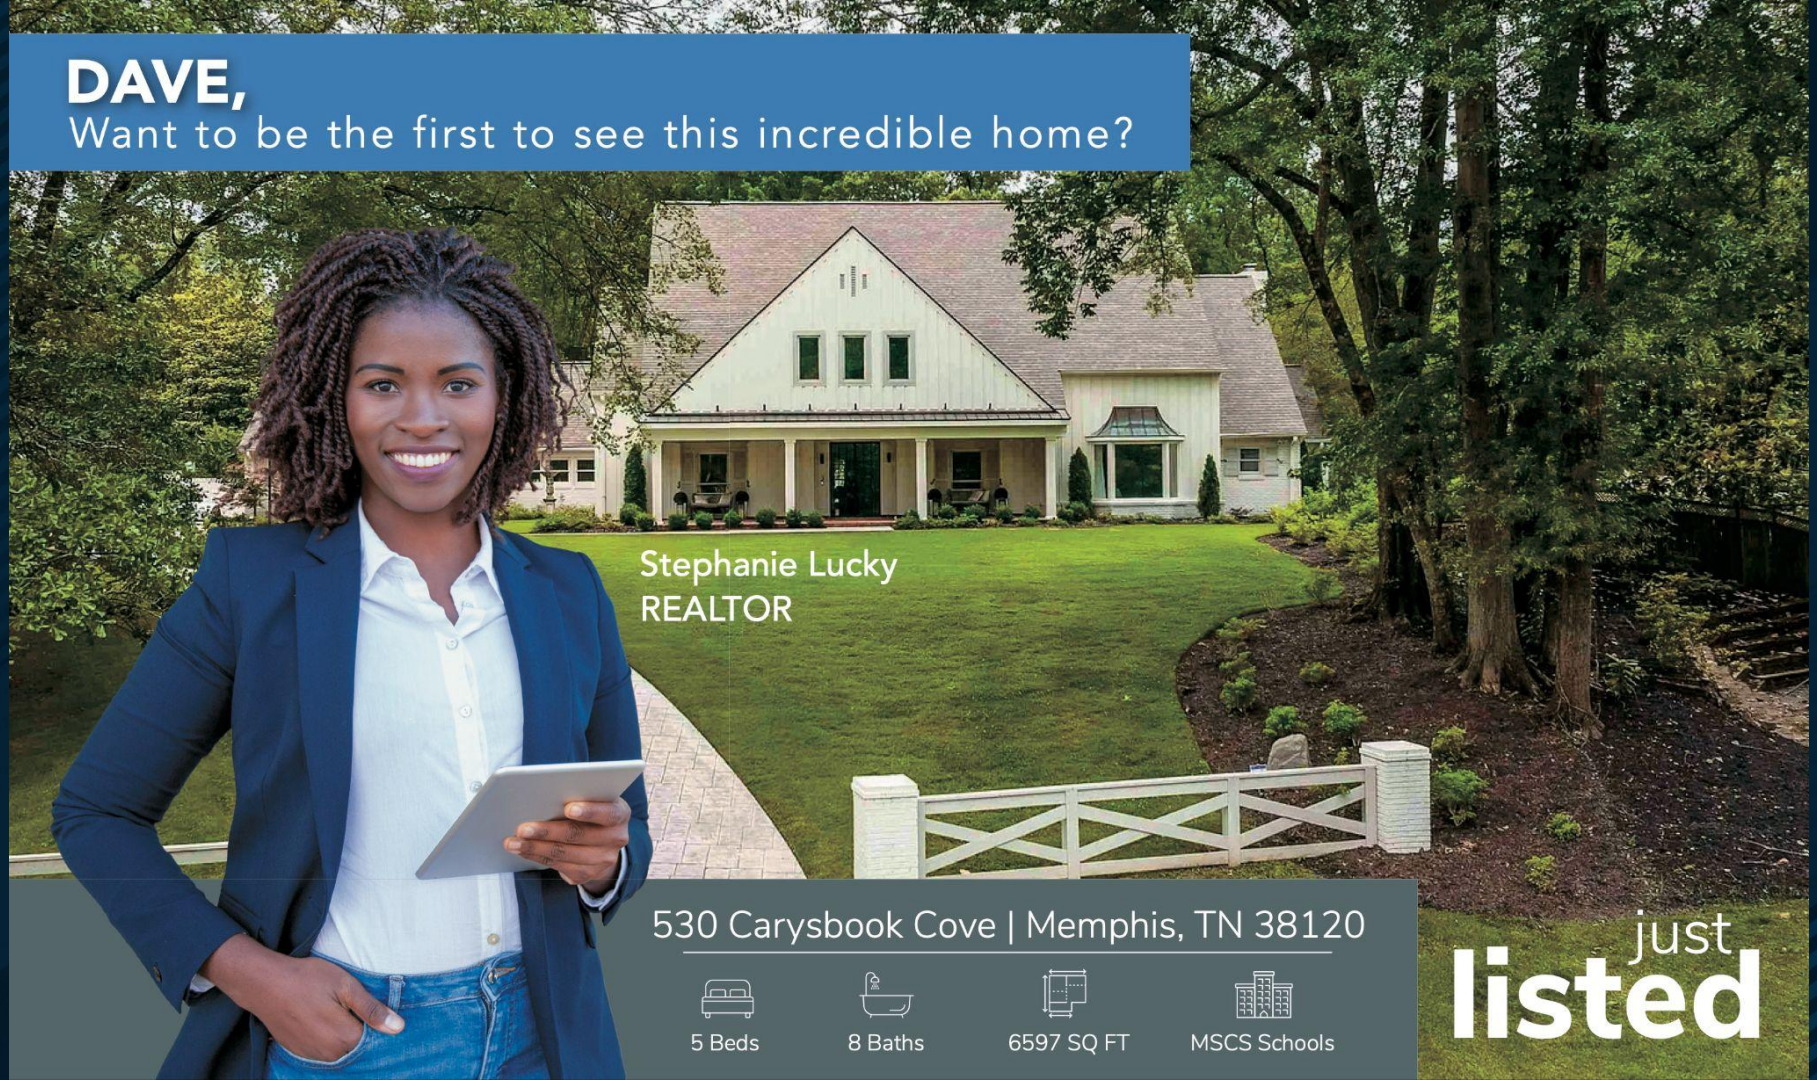
Connected Across Channels
Start a conversation by scanning the mail piece, continue it via text message, get follow-up emails. Everything stays connected. The AI can remember your conversation no matter how you reach out.

Smart Lead Qualification
The system evaluates interest level in real-time, so sales knows who's ready to move forward.

Measurable Results
Unlike traditional mail that disappears into a mailbox, every interaction is tracked—from initial IMb scan to final conversion. You'll know exactly what's working and what your ROI is.

Here's What Lands in the Mailbox:

DAVE,
Want to be the first to see this incredible home?



DAVE,

YOU WON'T WANT TO MISS THIS NEW LISTING!

Discover luxury living in this stunning 5-bedroom, 8-bathroom traditional home featuring 6,597 square feet of elegantly renovated space with premium finishes, situated on a private 1.06-acre wooded lot with an in-ground pool in the prestigious River Oaks neighborhood of East Memphis.

Always On, Always Ready!

- **Always available** - 24/7/365, no holidays or time zones
- **Perfectly consistent** - same quality conversation every single time
- **Constantly improving** - learns from every interaction, gets smarter over time
- **Infinitely scalable** - handles one conversation or one thousand simultaneously

Hear it yourself:
Listen to a 2-minute conversation →

Notice how naturally it transitions between languages

[Listen: English → Español → Português →]

“But I’m Not in Real Estate…”

That’s ok.

Real estate just makes for a great demo. The technology works anywhere you need a conversation to happen:

- Answer questions about your product or service
- Qualify leads while they're interested
- Schedule appointments when prospects are ready
- Handle objections in real-time
- Provide information in any language

The QR code goes on whatever you're already printing—mailers, statements, shelf tags, packaging, business cards, campus materials, even yard signs.

What matters: Do your customers have questions? This answers them.

Like This: Financial Services…

Dave,
Start a **new credit journey** with
Capital One Solutions

Free credit monitoring when you enroll in CreditWise

Personalized account alerts

Flexible payment due dates

Scan your **QR code** or visit **daverosendahl1.capitalonedemo.com**

Reply today using the personal codes located on your letter – it's fast and easy.

Capital One

Capital One

Get your credit questions answered in seconds.

Just scan and ask!

See if you'll be approved with 100% certainty* and no credit score impact.

1. Checking **won't impact your credit score**
2. **It's quick and easy.** Scan the QR code or visit **daverosendahl1.capitalonedemo.com**
3. Review your **card offers** and accept the one that **best fits your financial goals**

Plus, once approved, you'll **enjoy these features:**

***If approved, you may need to verify information you provided before we can open your account.**

SAMPLE

Or this: Same Technology, Different Surface

Retail: Scan. Ask about ingredients, sizing, availability. Get answers instantly—no hunting for staff

Electronic Shelf Tags: Every product becomes its own expert. QR codes on shelf tags answer questions at the point of decision

See the Pattern?

You just saw multiple industries. The pattern is simple: **AI-powered print drives action.**

- **Financial Services:** Turn acquisition mail into interactive applications
- **Healthcare:** Eliminate "is this a bill?" call center traffic
- **Education:** Make every campus mailer an enrollment assistant
- **Utilities:** Resolve billing questions before they become complaints
- **Political:** Give every constituent direct access to candidate positions

The technology is the same. The applications are endless. Let's find yours.
